

# HIMANSHU MOURYA

+91 8707656494 ✉ himanshumourya2k3@gmail.com 🌐 GitHub 🌐 LinkedIn

## SUMMARY

---

MERN stack developer skilled in building full-stack applications using React.js, Node.js, Express.js, and MongoDB. Experienced in REST APIs, database integration, and responsive UI development. Experienced in machine learning and data-driven projects, with strong problem-solving, debugging, and collaboration skills.

## EDUCATION

---

**Manav Rachna International Institute of Research and Studies**

**Aug 2022 – June 2026**

*Bachelor of Technology in Information Technology*

*Faridabad, Haryana*

## Skills

---

**Programming Languages:** Python, JavaScript, C++, SQL

**Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication

**Frontend Development:** HTML, CSS, JavaScript, React.js

**Databases:** MongoDB, MySQL, SQLite

**Developer Tools:** Git, GitHub, Postman, Jupyter Notebook, Anaconda, VS Code

**Soft Skills:** Problem Solving, Analytical Thinking, Adaptability, Quick Learning, Team Collaboration

## Experience

---

**Levithan Technologies**

Jan 2026 – Present

Developer Trainee

- Fine-tuned an Ollama-based LLM model on a cybersecurity dataset for improved domain-specific responses.
- Developing web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborating with cross-functional teams to implement features, fix bugs, and improve application performance.

**IBM SkillsBuild Internship**

June 2024 – Aug 2024

*Front-End Web Development Internship (Hosted by CSRBOX Foundation)*

- Built and deployed responsive web pages using **HTML, CSS, JavaScript, and Git**, improving user experience for learning modules.

## Projects

---

**Heart Disease Prediction Web App**

*Python, Machine Learning, Streamlit*

- Built a web application that predicts the risk of heart disease using machine learning models trained on medical data.
- Designed an interactive Streamlit interface supporting single and bulk CSV predictions with downloadable results.

**E-Commerce Web Application**

*React.js, Node.js, Express.js, SQLite, REST APIs*

- Built an e-commerce web application with product browsing, shopping cart, and order tracking functionality.
- Created APIs using Node.js and Express.js and developed the frontend using React.js with SQLite database support.

## Activities / Interests

---

- Organized and managed Capture the Flag (CTF) competition under Manav Rachna Infosec Army (MRISA), engaging 200+ participants.
- Developed and deployed a conference website for an international academic event.
- Active in tech communities and hackathons with interests in Development and Machine Learning
